Glass Bead Evolution/Bead Release

The International Society of Glass Beadmakers (ISGB) is the leading organization for the promotion, education, and appreciation of the art of glass and beadmaking for wearable, sculptural, and functional art.

Now an all-digital publication, *Glass Bead Evolution* provides content that complements the ISGB mission statement and programs that move the organization forward and in new directions, making it more than a membership publication. The organization continues to expand its readership and target audience to provide artists, designers, educators, studios, galleries, suppliers, and museums with unique opportunities to reach new markets.

Glass Bead Evolution is a magazine created by beadmakers for beadmakers and is inclusive of other mediums. Every issue features a complementary medium or technique while maintaining a strong emphasis on glass. In the new digital format, a greater emphasis is placed on marketing the publication to the entire glass community and the general public, reaching members, non-members, artisans, collectors, and more worldwide.

Glass Bead Evolution provides its readership robust content that includes insight into artists' private worlds, tours of fascinating venues, tips and techniques for both glass and complementary mediums, a showcase of exquisite work, and reviews of tools, materials, tutorials, and books.

We invite you to join us in our creative journey through the worlds of glass and complementary mediums.

Bead Release is a monthly e-newsletter. It is a platform for educational information offering helpful hints and tips, tutorials, and event links to creative community news and workshops. It also includes a monthly message from our ISGB President.
